

FRONT - LEARN & SET UP

1 KEY MECHANICS / RULES REFRESHER

- Take exactly 1 card from the same floor as your Thief token or any lower floor, then occupy that space.
- You may move sideways or downward and may skip floors. You may never move upward.
- Resolve a card Power immediately. If you cannot fully complete the Power, you may not take that card.
- Your Haul stays face-up and visible. Only the Light card dealt during setup remains face-down until scoring.
- You may exit from any location instead of taking a card. Once on the Bridge, you take no more turns.
- 2-player rule: after taking a card, discard a card from that same floor if possible. Omit 2nd Exit, Last Exit, and Fewest Curses tiles.

2 SCORING SUMMARY

CATEGORY TILES

- Treasure Suit: total the Value of cards showing that suit. Wild counts for every suit.
- Value Set 3 / 4 / 5: count cards showing that number, not their printed value total.
- Curses: count Curse icons. Compare totals for the relevant scoring tiles.
- A tie for any category means that tile is turned face-down and awarded to nobody.

FINAL TOTAL

- Reveal each player's secret Light card.
- Add Prestige on cards plus awarded scoring tiles. Highest Prestige wins.
- Tie: fewest Curses, then most scoring tiles, then shared victory.

3 STRATEGIC TIPS

GOOD HABITS

- Track two or three scoring categories instead of chasing everything.
- Use visible Hauls to estimate what opponents can still contest.
- Plan a downward route that preserves multiple useful choices.

COMMON MISTAKES

- Do not take a Power card you cannot fully resolve.
- Do not forget that category ties award no tile.
- Do not wait so long that you are forced into weak bottom-floor loot.

COMPETITIVE TIPS

- A timely exit can secure Prestige and deny others another turn.
- Wilds and multi-value cards can influence several categories at once.

4 END OF GAME

- Trigger: the game ends when all Thief tokens are on the Bridge.
- Reveal every face-down setup card and add it to its owner's Haul for scoring.
- Award scoring tiles one category at a time. Tied categories award no tile.
- Add card Prestige and scoring-tile Prestige. Highest total wins.
- Resolve ties by fewest Curses, then most scoring tiles, then shared victory.

EXIT TIMING REMINDER

1st and 2nd players to exit claim their tiles. The last player to exit receives the Last to Exit penalty tile.
