2. SETUP CHRONOLOGY

- 1 Choose the next chapter in order: 2015, 1971, 1818, then 1692.
- 2 Open the Story booklet to that chapter. Read only the introduction and first comic page; do not turn ahead.
- 3 Place that chapter's large Vision cards face down as pile A.
- 4 Place all mini cards face down as pile B.
- 5 Place the Greebo mini card face up beside pile B as area C.
- 6 When instructed, find the named mini card and follow it. The start mini card tells you which Vision card begins the scene.

COMPONENT LEGEND

A Vision cards • B Mini cards • C Greebo holding area

3. STRUCTURE OF A CHAPTER

1 INTRODUCTION

Read the chapter opening and comic. Take only cards specifically named.

2 VISION

Reveal linked viewpoints by matching visible card numbers and Zoom symbols.

3 QUESTIONS

After every Vision card is revealed, agree on final answers as a team.

4 CONCLUSION

Check solutions, mark correct answers, then resolve cards stored under Greebo.

4. LARGE SETUP VISUAL

1. KEY MECHANICS / RULES REFRESHER

REVEALING VIEWPOINTS

- If a number is visible in the artwork, find and reveal the Vision card with that number.
- A Zoom symbol means reveal the matching numbered Zoom card.
- Observe before revealing quickly; the position and point of view often matter.

RUNES & MINI CARDS

- A complete rune lets you take its matching mini card.
- Two incomplete halves can combine into a complete rune.
- Question mini cards stay face up so the group can revisit them.
- Place photo cards in the chapter Photo Gallery and comic cards on the matching comic frame.

GREEBO'S PAW

- Do not flip a mini card showing Greebo's Paw during the Vision.
- Slide that card under Greebo. Resolve stored cards only during the Conclusion.

2. QUESTIONS & RESULT

- No points are earned during exploration; gather evidence and discuss hypotheses freely.
- When all Vision cards are revealed, answer every Question together before checking solutions.
- Cross off one cat for each correct answer. Cross off every cat for a perfect chapter.
- There is no tiebreaker: the experience is fully cooperative.

3. SPOILER-FREE TABLE TIPS

GOOD HABITS

- Rotate or reposition revealed cards so everyone can inspect details.
- Name who or what each viewpoint appears to represent.
- Keep Questions visible and revisit early theories after new evidence.

COMMON MISTAKES

- Do not turn the Story booklet page past the comic ending.
- Do not reveal Greebo's Paw cards early.
- Do not stop after finding the likely answer; reveal every Vision card first.

DEDUCTION TIPS

- Compare sight lines: what one character sees may explain another card.
- Track repeated objects, symbols, positions, and time-specific changes.
- When stuck, scan every revealed card for an unused number, Zoom, or complete rune.

4. END OF CHAPTER

- 1 Finish revealing every Vision card.
- 2 Lock in the team's answers, then check the solutions.
- 3 Mark correct-answer cats in the booklet.
- 4 Resolve all Greebo cards using the mini-card insert. The chapter is complete.
