SCORING

Proceed as follows:

The same tile CAN score in multiple categories below!

1) Add **the numbers** shown on your bonus tokens and tiles.

2) **Animals:** each Animal Tile belonging to a group of **2 or more** adjacent animal tiles of the same type, is worth 1 VP per tile. A single animal tile is worth nothing.

3) **Colors:** each Colored Tile belonging to a group of **2 or more** adjacent tiles of the same color, is worth 1 VP per tile. A single colored tile is worth nothing.

4) Score 1 VP for every **3 leftover tokens** you have (regardless of type).

VICTORY

The player with the most points wins. In case of a tie, the player with the fewest tiles wins. If there is still a tie, the player with the fewest tokens wins. If the tie still persists... well, it's a tie!
