

Ankhor setup – see booklet

Goal – create sets of Jewelry, matching by animal or color

Turn:

- 1) Optional – spend one or more Ankh tokens (if you have any)
- 2) Must do exactly one of either
 - a) Take any 3 tokens from supply (including Ankh tokens)
 - b) Buy a tile (cost is above tile)
 - a. place in front of you; (for 2nd or later tiles) either
 - i. touching a prior tile orthogonally or
 - ii. on a supporting group of 4 (if at least 1 color match). These are 1 token cheaper to buy!
 - b. claim 3-point scoring bonus tile if
 - i. group of 5 or more matching colors
 - ii. group of 5 or more matching animals
- 3) Optional – spend one or more Ankh tokens (if you have any)
- 4) Discard down to 5 color resource tokens and 2 gold Ankh tokens

Ankh tokens (gold) can be used to either:

- 1) Refresh the marketplace tiles
 - a) remove the leftmost tile (only if 2-player game)
 - b) shift remaining tiles to the left
 - c) choose one draw pile
 - d) refill market from left to right from that pile
- 2) Move tiles in front of you. Specifically, either
 - a) Move a base tile to another valid location at base level
 - b) Move an upper level tile to another spot supported by 4 base tiles (ignoring matching color requirement).

Special tiles:

Circle (warehouse) – immediately place same color token on it. Can be spent and refilled from your hand as extra storage (as long as no layer above it)

Person (scribe) – immediately take an extra turn

+2 points – used at endgame scoring

End of game – triggered by placing 13th tile (= number of turns for all)

Scoring –

Add numbers from 3-point bonus tiles and 2-point tiles

+1 point for every animal tile in a matching group (solos don't count)
(Separately score the Jackals, Beetles, and Falcons)

+1 point for every colored tile in a matching group (solos don't count)
(Separately score Black, White, Blue, Green, and Red)

+1 point for every 3 leftover round tokens (color or Ankh)
